***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: The prior art, Toogood, teaches a rotatable base, a plurality of closed-sided, tooth sockets, each closed-sided tooth socket comprising a bottom and plurality of adjacent raised sides and a plurality of tooth assemblies; however, Toogood fails to teach the tooth holder having a base-engaging portion residing within 1/32 inches from each of the raised sides of said closed-sided tooth socket. Further, Applicant provides a criticality for the tooth holder spaced 1/32 inches from the raised sides of the tooth socket, set forth in par. 3 of page 7 in the filed remarks.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
